

SORT IT OUT!

3 Tips on Establishing an Orderly Work Flow Environment

01

Create a System

A good system is like a well-oiled machine -- built to run seamlessly!

02

Keep it Simple

Your system must be tailored to your unique working style. It should "flow" with you! Don't over-complicate it!

03

Discard the Excess

Regularly evaluate your needs and make adjustments accordingly! Don't be afraid to discard what is no longer useful. Identify the essential! Eliminate the rest.
